# PRODUCT BULLETIN

**Bulletin No:** PB341

**Issue Date:** 2-28-2014

**Effective:** 2-28-2014

**Product Description:**

Alsident® Fume Extraction Arms and related parts

**Part No:**

999-150, 999-163, 999-164, 999-165, 999-166,  
999-167, 999-170, 999-207-01, 999-207-02,  
999-207-03, 999-636

**Specification:**

**DISCONTINUED**

**Comments:**

The Alsident® Fume Extraction Arms and related parts have been discontinued. Customers are recommended to use the HAKKO C1571 or HAKKO C1572 Rigid Duct Kits with their HAKKO fume extraction systems.

The Alsident® Fume Extraction Arms offered by HAKKO were introduced December 12, 2000 on Product Bulletin PB131. These extraction arm kits are specialized high-quality articulated arms that are self-supporting, easy to position, and come with various intake options.

With the need for low cost but flexibility when planning on a fume extraction system, the interest in the Alsident® Fume Extraction Arm kits has diminished while favor has grown for the C1571 and C1572 Rigid Duct Kits that were introduced April 26, 2011 for use with the new HAKKO FA-430 Fume Extraction System.

HAKKO guarantees replacement part supply for products for a period of three (3) years, and consumable parts supply for a period of five (5) years after the date of discontinuation. After the applicable guarantee periods, replacement and consumable parts may only be available while supplies last.
