Comments:

The new Hakko FX-888 soldering station is an inexpensive yet durable temperature adjustable soldering station that provides more power and takes up less bench space than its predecessor (Hakko 936.)

The added power of the FX-888 provides up to a 30% increase in thermal performance and faster thermal recovery time, and it uses approximately 35% less surface area compared to the Hakko 936.

Other features include:

- adjustable temperature control with lock/set screw
- ceramic heating element and sensor ensures rapid heat up and temperature and fast thermal recovery
- Fahrenheit and Celsius temperature display
- slender, ergonomic soldering iron handle
