| | |

Comments:

The HAKKO B5045 pipe for the HAKKO FR-810 hot air rework stations has changed to accommodate older generations of nozzles. The new pipe will work with the HAKKO N51 nozzles made for the HAKKO FR-810 and will no longer require the B5058 adaptor for nozzles from the HAKKO FR-801, FR-802, and FR-803B hot air units.
