Product Description:

Hakko N4 Cartridge Curved Hot Air Rework Nozzle

Part No:

N4-05

Specification:

Comment:

The curved end of the Hakko N4-05 Hot Air Rework Nozzle allows for improved component visibility when working under magnifiers or microscopes with the Hakko FM-2029 Single Hot Air Handpiece. This also provides a more natural hand position.

NOTE: Due to the longer outlet of this N4 cartridge, the maximum attainable air temperature from the end of the nozzle is 520°C.
