Effective: 10-13-2015

Product Description:

HAKKO Fume Extraction Hoods and Hood Kits

Part Nos:

999-206-01, 999-206-02, 999-206-03, 999-146,
999-151, 999-168

Specification:

DISCONTINUED

Comments:

The HAKKO Fume Extraction Hoods and Hood Kits have been discontinued and will be phased out as the remaining supply is exhausted.

With the introduction of the HAKKO FA-430 Fume Extraction System in April 2011, the popularity of the semi-rigid duct kits (PNs: C1571 and C1572) has grown significantly due to the market need for greater flexibility and improved suction capability.

There are no similar hood kits available that use a plenum-type hood. HAKKO recommends the use of the semi-rigid duct kits (PNs: C1571 and C1572) as replacements for the discontinued extraction hoods and hood kits.
