Comments:

The Hakko N50 Series nozzles are for use with the Hakko FR-300 Desoldering Tool. The N50 Series nozzles are being discontinued and being replaced by the new Hakko N50B Series nozzles. Although there is a change in appearance, there is no change in performance or functionality. For more information regarding the N50B nozzles, please refer to PB412.

The Hakko N50 Series nozzles will be available while supplies last and will switch to the corresponding N50B part number accordingly.
