## P R O D U C T B U L L E T I N

**Bulletin No:** PB162

**Issue Date:** January 08, 2003

**Product:**

817 Desoldering gun

**Part No:**

817-01

**Specification:**

Power consumption	24V, 60 watts
Nozzle to ground resistance	Under 2 $\Omega$
Nozzle to ground potential	Under 2 mV
Heating element	Ceramic heater
Temperature range	350 – 450°C (662 – 842°F)
Standard nozzle	A1003
Cord length	1.2 m (4 ft)
Outer dimensions, w/o cord	135 x 145mm (5.31 x 5.71 in.)
Weight, w/o cord	Approx. 180 g (0.39 lb)

**Comments:**

The 817 desoldering gun is compatible with the 472, 473 and 703 stations. Any station that uses the 807 desoldering iron can operate the 817. The 817 incorporates the same nozzles and filters as the 802 gun or 807 iron. The primary benefit of the 817 is to allow operators the choice of either gun or pencil desoldering without having to purchase a separate station (i.e. 470 or 472).

NOTE: Do not use the 631-06 holder and base (802 holder) with the 817. The holder will get hot and may damage the 817. Replace B1094 holder from 631-06 with holder B2833 for proper operation.

**Accessories:**

634-06 Holder and stand

B2832 Holder for 472D station

B2796 Holder for 703B station

**Station configurations:**

472D-02

473-2

703B-2

**Available:**

817-1 December 20, 2002

472D-02 January 20, 2003

703B-2 February 20, 2003

473-2 February 1, 2003
