P R O D U C T B U L L E T I N

Bulletin No: PB231
Issue Date: December 5, 2005
Product: FR-801 SMD Rework Station
Part No: FR801-11
Available:
 January 10, 2006

Specifications:

| | |
|---|---|
| Model | Hakko FR-801 |
| Total Power Consumption | 120V – 430W |
| Station Power Consumption | 30W (Stand-by Mode: 4W) |
| Handpiece Power Consumption | 400W |
| Pump Type | Diaphragm Pump |
| Pump Capacity | 5 to 20 l/min (max) |
| Control Temperature (as measured using A1126B Nozzle) | 100 to 420°C (212 to 788°F) |
| Dimensions | 160(W) x 145(H) x 230(D) mm (6.3 x 5.7 x 9.1 in) |
| Handpiece Length (without cord) | 185(L) mm (7.3 in) |
| Handpiece Weight (without cord) | 115 g (0.25 lb) |
| Station Weight | 4 kg (8.82 lb) |

Specification may be subject to change without notice

Contents:

| Name | Part Number | Quantity |
|---|--------------------|-----------------|
| FR-801 Station | n/a | 1 |
| Power cord | B2419 | 1 |
| Handpiece holder | B3006 | 1 |
| FP pick-up with 1 piece of (S) and (L) | B1438 | 1 |
| Manual | n/a | 1 |

Station does not include a nozzle. Nozzles are purchased separately.

Comments:

The Hakko FR-801 is one of the new generation of SMD rework systems. The unique air stream outlet design allows for consistent temperatures of the hot air stream generated by the unit.

The Hakko FR-801 also features an easy to read airflow meter with control, allowing an operator to visually set the airflow, and an automatic cool down feature that automatically engages once the stop button is pressed. The compact design of the Hakko FR-801 uses less work area than previous models, and is ESD safe by design.

**Accessories:**

The Hakko FR-801 is compatible with the C1392B Rework Fixture, 853 Preheater and all Hakko 850 and Hakko 852 hot air nozzles. For a complete list of hot air nozzles available, please visit our web site at www.HakkoUSA.com

Suggested List Price:

US\$599.97
