PRODUCT BULLETIN

Bulletin No: PB277

Issue Date: June 10, 2008

Effective SN: 0007802207001485

Product Description:

Hakko FR-802 Digital SMD Hot Air Rework Station

Part No:

FR802-11

Specification Change:

Maximum temperature has been increased from 450°C to 500°C (840°F to 930°F)

All other specifications remain unchanged.

Comments:

The PCB has been updated in the Hakko FR-802 to increase the maximum temperature the station can achieve. This update is effective on all units with serial numbers 0007802207001485 or later. The new PCB part number is B3378. The previous PCB part number B3012 has been discontinued.

For customers that have older FR-802 stations, the new PCB is compatible. Replacement of the PCB will upgrade the performance of the product to the current specification.
