**Product:**

FT-800 Thermal Wire Stripper

**Part No:**

FT800-01

**Comments:**

The FT-800 Thermal Wire Stripper will strip a wide variety of wire insulations. The blades can heat up to approximately 800°C (1472°F) and are easy to replace. The FT-800 includes one set of standard blades, notched to fit 18 to 28 AWG wires. Straight blades are available as an accessory. Two lead adjusters are included that will allow repeatable wire strip lengths from 1-38 mm. To extend the life of the blades the FT-800 has a power save mode. When the FT-8001 handpiece is placed in the holder the station enters the power save mode and reduces the blade temperature by approximately 50%. The FT-8001 handpiece has an indicator light that shows when the blade temperature has stabilized.

**Specification:**

Power Consumption	120V AC / 68W
Temperature range	Approx 200 to 800°C (392 to 1472°F)
Dimensions	120 (W) x 93 (H) x 170 (D) mm (4.7 x 3.7 x 6.7 in.)
Weight (w/o cord)	1.3 kg. (2.9 lbs)
Handpiece cord length	1.3 m (4.3 ft.)
Handpiece length w/o cord)	140 mm (5.5 in.)
