FX-100

INDUCTION HEATING SOLDERING STATION

No calibration required. Simply turn ON the station, and feel its power! Within seconds, you'll notice the power from the HAKKO FX-100 rapidly transferring heat to the tips using HAKKO's induction heating technology. **Tips Sold Separately.*

FEATURES & BENEFITS

- Password Lockout prevents unauthorized system setup changes
- Sleep Function reduces tip temperature to preserve tip life and reduce oxidation when the iron is not in use
- Large backlit display provides a clear and simple interface for the operator
- Auto shut-off safety feature
- Compact design minimizes the workbench footprint
- Meets or exceeds requirements under IPC J-STD-001, ANSDI ESD S20.20 and older MIL-STDs

SPECIFICATIONS For Part No. FX100-04

STATION	
Voltage	120 V
Power Consumption	85 W
Temperature Stability	Meets or exceeds IPC J-STD-001, ANSDI ESD S20.20 and older MIL-STDs
Output Frequency	13.56 MHz
Outer Dimensions (W x H x D)	127 mm x 150 mm x 167 mm 5.0" x 5.9" x 6.6"
FX-1001 HANDPIECE	
Tip to Ground Resistance	< 2 Ω
Tip to Ground Potential	< 2 mV
Cord Length	1.3 m (4.3 ft)
Total Length*	190 mm (7.5 in) with T31-02D24 tip

CONTENTS For Part No. FX100-04 (Complete Kit w/ Station, Handpiece & Iron Holder)

Part No.	Description
FX100-53	Station + B2419 (power cord)
FX1001-51	Handpiece
FH800-51BY	Iron holder + brass wire & sponge
B5006	Heat resistant sleeve - yellow color (installed)
B5007	Heat resistant sleeve - green color
B5008	Heat resistant sleeve - gray color
B2300	Heat resistant pad
N/A	Instruction manual

IRON HOLDER
w/ Brass Wire & Sponge

FX-1001

STANDARD HANDPIECE

The **FX-1001 Standard Soldering Handpiece** is a lightweight, slender, and ergonomically designed handpiece with a burn resistant cord that allows the operator excellent dexterity. The FX-1001 handpieces works with the FX-100 soldering station, and uses T31 series tips, available in 4 different temperature series. **Tips Sold Separately.*

FEATURES & BENEFITS

- Powered by RF (induction) heating
- T31 series tips deliver great performance while providing up to 2 times longer tip life (on average) compared to other non-HAKKO tips
- No calibration required
- Slender, lightweight, and ergonomically designed handpiece with burn resistant cord allowing for excellent operator dexterity
- Conversion Kit Available (FX1001-52)
- Sleep function that engages when the handpiece is placed in the holder

SPECIFICATIONS For Handpiece Only Part No. FX1001-51

Series Tips	T31-00: 895°F (480°C), T31-01: 840°F (450°C), T31-02: 750°F (400°C), T31-03: 660°F (350°C)
Type of Station	HAKKO Induction Heating Soldering Station
Tip to Ground Resistance	<2 Ω
Tip to Ground Potential	<2 mV
Cord Length	1.3 m (4.3 ft)
Total Length*	190 mm (7.5 in) with T31-02D24 tip

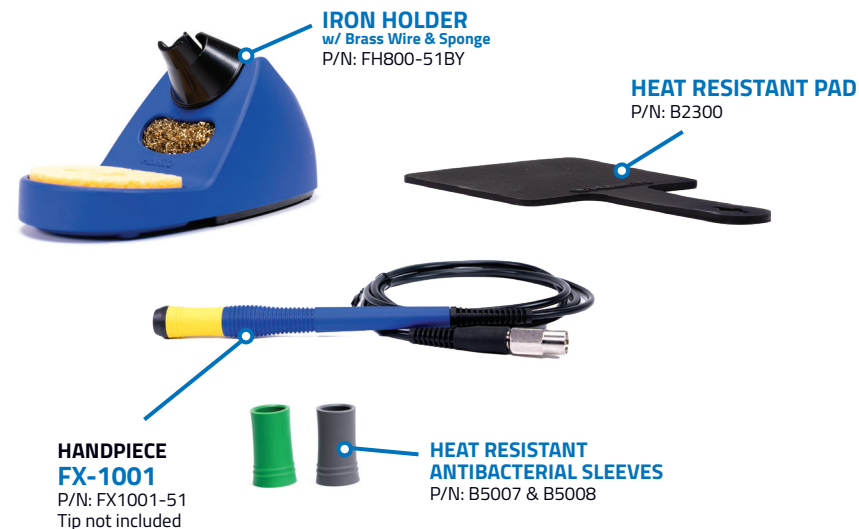

CONTENTS For Part No. FX1001-52 (Complete Kit w/ Handpiece & Iron Holder)

FX-1002 MICRO SOLDERING IRON

The FX-1002 Micro Soldering Iron works with the FX-100 Soldering System. The power and performance of induction heating can now be felt with the FX-1002 micro handpiece and T35 series tips. By reducing the size of the tip and handpiece, the FX-1002 allows operators to work under a microscope for micro soldering applications. **Tips Sold Separately.*

For more information Scan QR Code.

FEATURES & BENEFITS

- The FX-100 Micro Solution!
- Same great power and performance felt with induction heating
- Quick-change T35 Series tips
- Conversion Kit Available (FX1002-84)
- Great for working under microscopes
- Sleep function that engages when the handpiece is placed in the holder

SPECIFICATIONS For Handpiece Only Part No. FX1002-83

Series Tips	T35-02: 750°F (400°C), T35-03: 660°F (350°C)

FX-1003

MICRO REWORK TWEEZERS

The **FX-1003* Micro Tweezers** work with the HAKKO FX-100 Induction Heating Soldering Station, delivering the same great power and performance felt with induction heating. With the ultra fine T38 tip shapes available in TWO different temperature series (750°F & 660°F), it will transform the way you rework. **Tips Sold Separately.*

FEATURES & BENEFITS

- 4 types of tip alignment are possible:
-Vertical: ±1mm, Horizontal: 10mm, Forward: ±1.5mm, Angle: ±200 deg.
- The handpiece is designed with an ergonomic shape for comfort and is ESD safe
- The holder can store spare tips and makes changing out hot tips easy and convenient
- Sleep function that engages when the handpiece is placed in the holder

4 ADJUSTABLE TIP ALIGNMENTS

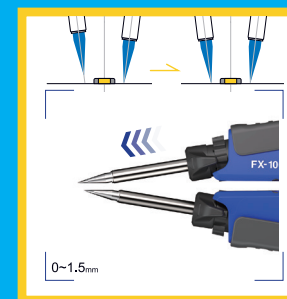

VERTICAL
Perfectly adjusts the tips for precision accuracy.

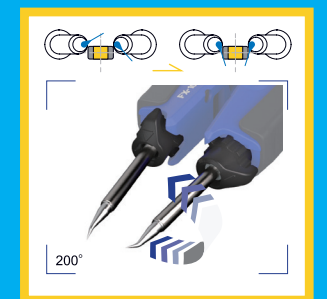

HORIZONTAL
This allows for larger and much smaller components to be removed with a width range of 10mm down to 0.

FORWARD
Perfectly adjusts the tips for precision accuracy.

ANGLE
Rotating the tips give the operator better control of how they'd like to remove the components, catering to preference.

The FX-1003 Micro Tweezers sports an impressive **line up of tip alignment adjustments in order** to secure the right contact for micro components.

HAKKO COLLECTION

Backed by the Quality, Reliability and Power
You've Come to Expect from HAKKO.

Introducing a collection of intuitive content that brings you closer to all the action with our Eye on Hakko, Hakko Fights, Hakko Tips, and Hakko Donates series. Join our **Hakko Tips** E-Newsletter as we cover new products, tips, and industry wide information, involving you in the process as much as possible. **Eye on Hakko** takes you on a journey of entertainment and information through our videos, webinars, and social media, bringing you bigger and better content. Help us support the research into healthcare with **Hakko Fights**, our way to provide hope and support to those in need to help them thrive. Give back with **Hakko Donates** as we get involved in giving back to the communities that make us great. All this backed by the quality, reliability, and power you've come to expect from Hakko.

Create. Unite. Inspire.

Hope. Support. Thrive.

Grow. Connect. Inform.

Embrace. Empower. Future.

EYE ON HAKKO

Reaching out and connecting the world through entertainment and information. American Hakko Products, Inc. hopes to **unite** and **inspire** a generation of individuals that can **create** a better tomorrow. Eye on Hakko is the realization of that dream, building a bridge between Hakko and you.

HAKKO FIGHTS

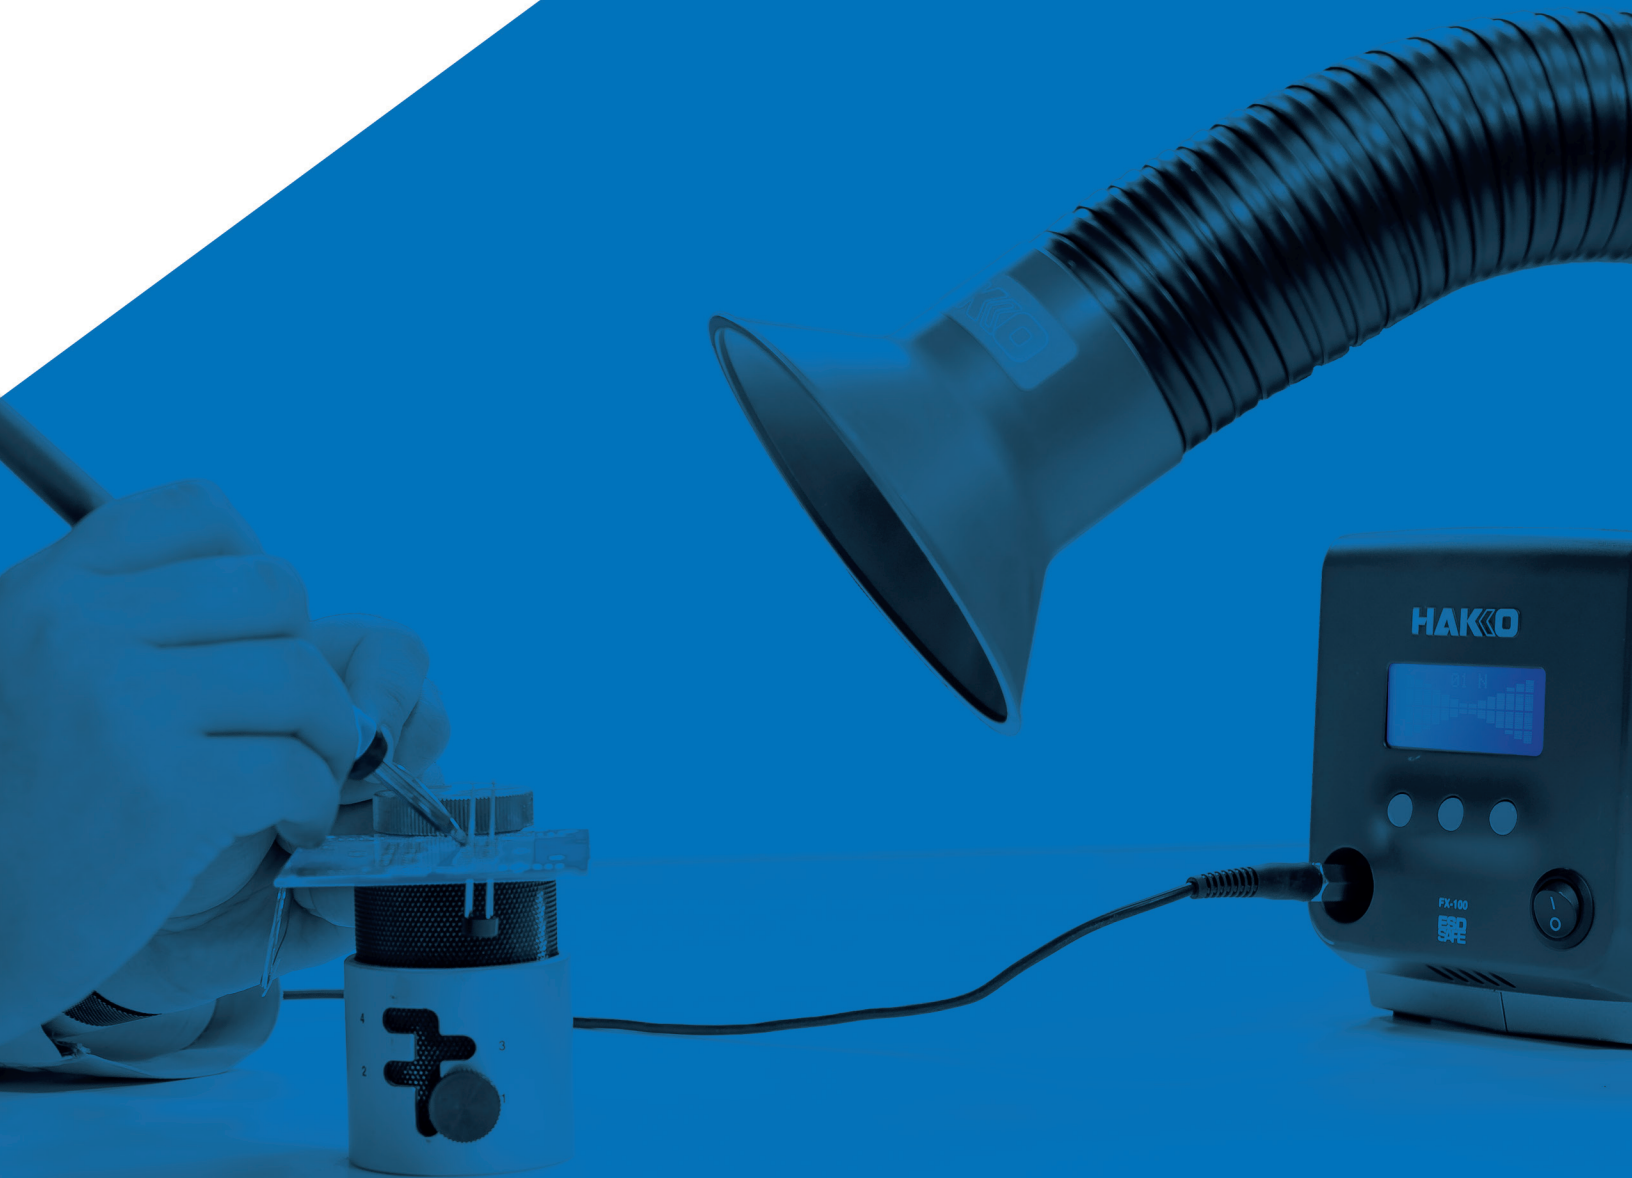

American Hakko Products, Inc. works with foundations that are dedicated to making a difference in individuals' lives through health care. The enthusiasm and dedication shown from these institutions is what fuels us in the fight against disease and illness. With the goal to passionately create an environment where we can give **hope**, and **support**, and help lives **thrive**.

HAKKO TIPS

Continually striving to put a smile on our customers' faces has always been our number one priority. You can hear it when you call into our customer service and you can see it on our products. Our process for creating a better product always starts with the customer and we'd like to involve them in on that process as much as possible. The Hakko Tips E-Newsletter is our way to **connect** them to that experience, to **inform** them, and let them **grow** with us.

HAKKO DONATES

American Hakko Products, Inc. with the mission of building a better **future** for younger generations, is dedicated to the community, universities and schools whose main focus is on engineering where people come from all walks of life to build something together. Over the years we've prided ourselves in assisting in this endeavor by inspiring and **empowering** the next generation to **embrace** their skills of soldering using Hakko products.
